Den, I will be on the call.

The original document was not written as a briefing document for HQ, necessarily. I thought we shared it with them as informational. If asked, I think we could have done a much better and different job a briefing document was the intent. The original recommendation document, which will remain in our file, was to walk through the process of how we decided to resample selected homes and make an over recommendation. If a briefing document is needed, then I would remove the details found in the analyte section too and take a whole different approach.

Rich
